

SUMMARY

AI Engineer with 2 years of experience building and deploying scalable ML, GenAI, Agentic AI systems. Skilled in RAG pipelines, LLM-based applications, AWS, Cloud Infrastructure, MLOps with a strong focus on performance optimization and production-ready solutions

EDUCATION

- Indian Institute of Information Technology, Lucknow

Lucknow, Uttar Pradesh, India
- M.Sc. in Data Science (GPA: 8.82)

Aug. 2023 – Jun. 2025

EXPERIENCE

- Ascension, Gurugram

Hybrid
- Associate AI Engineer

Nov 2025 - Present
- Optimized clinical ML systems, reducing runtime by up to 60% using parallel processing and GPU acceleration.

Improved model performance by 34% through better preprocessing, feature engineering, and hyperparameter tuning

Moved models from research to production, adding monitoring, error handling, and reproducibility.

Partnered with client stakeholders to translate business needs into practical ML solutions, and led client meetings to present insights and drive decisions.
- Savart, Hyderabad

Hybrid
- Data Science Intern

June 2025 – Oct 2025
- Enhanced a financial RAG application using 200+ company concalls and reports, boosting valuation accuracy by 18% .

Agent Chatbot: Engineered a LangGraph-based customer support agent with conditional routing, RAG, and LLM summarization, handling 1K+ monthly queries and improving resolution efficiency by 30% and hosted it on EC2.

Developed a single-image height estimation pipeline with DepthPro, reaching 99.7% accuracy and automated it using Lambda, provisioned and managed infrastructure with Terraform.
- Wolfpack Intelligence LLP, Bangalore

Remote
- AI/ML Engineer Intern

Jan 2025 – May 2025
- AI-Driven Education Platform: Built an AI-powered learning assistant with Docling and GPT-4o, integrating RAG + CAG for doubt-solving; deployed on AWS (Bedrock + S3) to serve 1K+ students, boosting learning efficiency by 25%.

AI-Powered Matchmaking App: Developed an app using collaborative, content-based filtering, storing user profiles in DynamoDB and tracking real-time performance with MLflow; improved match quality score by 20%

PROJECTS

- AI Multi Agent Trip Planner: Developed an AI-powered Multi-Agent Trip Planner using LangGraph, Gemini API, Tavily, Wikipedia to generate personalized itineraries with real-time flights, hotels, weather, and activities; integrated Streamlit UI, PDF export, for end-to-end trip planning.

(Aug’ 25)
- PolyDocs Implemented a high-performance RAG powered Multi-PDF processing bot using Groq API and Llama3-70b-8192 model, used FAISS for vector storage, HuggingFace for embeddings

(Oct’ 24)

RESEARCH & ACADEMIC WORK

- An LSTM-Based System for RUL and EOL Estimation of EV Batteries The pipeline forecast battery capacity and RUL/EOL from CALCE data, deploying as a Streamlit app with a Groq-powered chatbot.

[Thesis Paper]

SKILLS SUMMARY

- Languages C++, Python, NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, Git/GitHub, Hadoop, Pyspark, SQL, PsotgreSQL, Terraform

Tools FastAPI, Flask, Streamlit, LangChain, LangGraph, RAG, Docker, CI/CD, OpenAI, Gemini Groq, AWS(EC2, S3, Bedrock, Sagemaker, DynamoDB, Lambda, Redshift, Glue, Athena), Qdrant, FAISS, Ollama, Mlflow, MongoDB, Power BI

Coursework Data Structures & Algorithms, Machine Learning, DL, Big Data, Reinforcement Learning, NLP, AI

Soft Skills Leadership, Event Management, Writing, Public Speaking, Time Management

ACHIEVEMENTS

- IIT JAM All India Rank: Achieved AIR 969 out of 13333 candidates in IIT JAM(Mathematics)

Coding Questions: Solved 150+ DSA and SQL questions. →Coding Ninja →LeetCode →HackerRank

Databricks Certified Academy Accreditation → Databricks Fundamentals → Generative AI Fundamentals

Completed AWS Cloud Essentials Training. → Certificate

Completed AWS AI Practitioner Training. → Certificate

VOLUNTEER EXPERIENCE

- Teaching Assistant at Indian Institute of Information Technology, Lucknow (Jan 2024 - July 2024) Developed ML training notebooks on AWS SageMaker, using datasets stored on Amazon S3. Also fine tuned BERT/RoBERTa on NLP tasks as sense disambiguation, NER with and aspect-based sentiment analysis.

[NLP Tasks]
